Intent To Prepare Environmental Impact Statement, Harney County, OR

AGENCY: Burns District, Bureau of Land Management (BLM), DOI.

ACTION: Notice of intent to prepare an Environmental Impact Statement (EIS) for a Plan of Operations for a proposed geothermal electric generating plant and associated geothermal facilities and operations near Borax Lake in Pueblo Valley, southern Harney County.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, and 43 CFR Part 3200, the Bureau of Land Management (BLM) will be directing a third party contractor in the preparation of an EIS on the impacts of a proposed geothermal electric generating plant and associated facilities and operations known as the Pueblo Valley Geothermal Project, which would be located on public land about 1-mile southwest of Borax Lake and 5 miles northeast of Fields, Oregon. Comments are being requested to help identify significant issues or concerns related to the proposed action, to determine the scope of the issues and alternatives that need to be analyzed, and to eliminate from detailed study those issues that are not significant. Supporting documentation should be included with comments recommending that the EIS address specific environmental issues.

DATES: Scoping meetings to encourage public participation will be held in Burns, Fields, Bend, and Portland. Once a third party contractor has been selected, the exact dates and locations will be published in the Burns Times-Herald, Bend Bulletin, and the Oregonian.

ADDRESSES: Written comments should be addressed to the Bureau of Land Management, HC 74-12533 Hwy 20 West, Hines, Oregon 97738, Attn: Pueblo Valley Geothermal Project Manager.

FOR FURTHER INFORMATION CONTACT: Craig (Cody) M. Hansen (503) 573-4400.

SUPPLEMENTARY INFORMATION: Anadarko Petroleum Corporation submitted a Plan of Development, Utilization, Production, Injection, and Disposal for a project to drill and test production and injection wells and to supply, build, and operate a 22.9 MW (net) air-cooled binary geothermal electric power plant and supporting facilities in the Alvord Known Geothermal Resource Area (KGRA) in Pueblo Valley. The development would be located within portions of Sections 21, 22, 23, and 27,

Township 37 South, Range 33 East of the Willamette Meridian. Geothermal fluid (hot water) would be pumped from an underground reservoir and produced initially from 6 to 10 geothermal production wells. The hot water would be transported via surface pipelines to a proposed binary power plant where it would be used to heat a second fluid system, which in turn would run turbines to generate electricity. After heat extraction, the cooled geothermal water would be pumped via surface pipelines to six to eight injection wells to be returned to the subsurface geothermal reservoir. The plant would use a closed production loop with no release of geothermal liquid or gases to the surface environment. Well spacing would be approximately one well per 25 acres and well pads would occupy between 1.2 and 2.2 acres. The production facility would occupy 12.6 acres. The proposed plan includes monitoring of Borax Lake and the collection of seismic data in the area as well as a suite of mitigation measures to reduce adverse impacts. The estimated viable life of the project is expected to be 30 years.

This EIS will address potential impacts to nearby Borax Lake as well as to geology, minerals, geothermal resources, groundwater, soil, vegetation, grazing management, wildlife, recreation, visual resources, air quality, cultural and paleontological resources, land use, access, and social and economic values related to development of the project.

Federal, State, and local agencies and other individuals or organizations who may be interested in or affected by the BLM's decision are invited to participate in the scoping process. The Authorized Officer will respond to public input and comment as part of the final EIS through the third party contractor. The decision regarding the proposal will be recorded as a Record of Decision, which is subject to appeal under 43 CFR Part 4.

Date: July 5, 1995.

Jerome A. Petzold,

Assistant District Manager for Operations.
